Natural Disasters in Nepal: Facts, Challenges and Resolution

Dear Student,

Given here is the special project for you to undertake and accomplish during the Dashain – Tihar – vacation 2074. You are instructed to prepare a review and research based report on **Natural Disasters: Facts, Challenges and Resolution.**

Natural Disaster is a threat to human world. Modernization and development projects have undermined the sustainable development as it has created different defects in realm of nature. We are forgetting the fact that nature is the habitat to all living and non-living creatures. The existence relies on nature. Natural Disasters are the outcome of similar nature degrading activities. So, in this project you try to explore the causes, consequences and cures of different natural disasters.

Here, you have to focus on at least any three natural disasters that Nepal has faced, make a research on their facts and possible threats. Focus upon the facts to discuss causes and consequences. You should point out the possible cures that Nepal could adopt to mitigate such natural disasters and their effects. You have to write minimum 250 words on discussing the facts (causes and consequences) of each natural disaster. You need to add minimum 100 words as your reflection over how Nepal could get ready to minimize the natural disasters. The project makes an evaluation over all three natural disasters that you have selected to discuss on cures of them.You can use pictures to make it more realistic.
