

Principal's Appeal on Coronavirus (COVID-19)

Principal's Appeal on Coronavirus (COVID-19) To the students/parents/teachers and staffs This letter of appeal would like to bring in the notice to all the guardians, parents and students about the communicable disease coronavirus (COVID-19), safety measures applied and online education started for the students by Uniglobe SS/College, Kamaladi. World Health Organization (WHO) has defined Coronavirus (COVID-19) as a large family of viruses that cause severe illness with common signs of infection that include respiratory symptoms, fever, cough, and shortness of breath and breathing difficulties leading to pneumonia, respiratory syndrome and kidney failure. Therefore, in line with WHO safety and precaution guidelines, all the students/parents and college staffs are advised to apply the common preventive measures which includes: a- Regular hand washing, b- Covering mouth and nose while coughing and sneezing and c- Avoiding the close contact with anyone showing symptoms. Following the precautions, Uniglobe has provided sanitizer at different locations of college premises. The students are asked to wear mask and if possible to carry their own sanitizer pack. The students are also asked not to shake hands and hug each other and to cover their face properly at the time of sneezing. Moreover, we are also glad to announce that keeping in mind about the influence of virus, upcoming Pre-Board and Board Examination, we have started online classes (e-prep classes) for the students of grade XI and XII where students can be benefitted with the live classes as per the schedule and can interact with teachers frequently. So, we also request all the parents to register the name of their ward(s) to the online classes as soon as possible for additional support and learning. We also hope and request all the guardians/parents to follow the precautions and make yourself and your ward stay safe.

Thank you.

Dr. Karan Singh Thagunna Principal
